Anne has always thought of herself as middling. Middling looks, middling position in the form, middling magical Gift and just a middling curve to the tip of her ears. Her best friend, Lady Emmeline Eversleigh, commonly known as Kitty, is not middling anything. And when Kitty drags Anne into playing a Saint Valentine's Day prank of truly wicked--and magical--proportions on one of the prefects, Anne finds herself in more than a middling muddle of trouble.
