On her best friend's wedding night, Becca Lawson becomes distressed when she runs into the man who once held her heart and shattered it completely. One night of intense emotions and daring confessions is all it takes to rekindle long-lost emotions. Fearing another heartbreak, Becca shuts herself off completely, denying herself a chance at true love. On the surface, it seems Austin Blackstone has it all. He's rich, young and strikingly good-looking; but deep down, his heart aches for the unforgettable girl who slipped through his fingers. When a serendipitous encounter places them together on a tropical paradise, all of his deepest and darkest secrets threaten to spill over. He's willing to forsake everything he has built to finally get what he truly desires. Rekindled Desires is a touching love story of second chances and new beginnings. Can two vastly different people forget their rules and take a chance at love? Fans of Deborah Bladon are sure to love this sweet tale set on a beautiful, Caribbean island.
