Do you believe in myths and ancient creatures? Daniel has never felt the need to leave the city behind, so when his husband suggests a camping trip for their holiday he agrees with reluctance. Even before they step out of the car, Daniel has the feeling of something being wrong. Something about the forest is turning his stomach into knots. He wants nothing more than returning to the safety of their home, and when their five-year-old son goes missing his fears turn into full-blown panic. What awaits them in the depths of the forest is far more sinister than anything Daniel ever could have imagined. Will they be able to find their son before it's too late?
