After a horrific crime tears away all that he loves, Ryder Dunham, former Special Forces combat veteran, spirals into a dark world of alcohol, self loathing and despair. Through a chance meeting, he is introduced to a wealthy businessman who too has had his life shattered by sense violence.

Together, the two conspire to combat society's vermin and with the mogul's financial and logistical support, the pair unleashes Ryder's deadly skills against those who prey upon the weak. What begins as a partnership of vengeance comes crashing back to earth in the form of a double cross so staggering that it destroys their unholy union and pits the two men against each other in a life and death struggle.
