The Rockhounds story continues in Fatal Flaw, and Matt and Parker's life has taken a dark turn. With Parker gone, Matt turns to his old lover and enemy Sean to help, and has to make some very hard promises. They head to Africa with Sean thinking Matt is with him to stay, but Matt knows Parker is the only one for him, and only wants his lover back. When Sean and Matt find Parker, things go from tense to downright dangerous, with jealousy flaring and Matt finding a side of himself he didn't know existed. Can he and Parker find a way out of the mess they've made?
