Rachel and Julie are occult students at Chrystal Heights Community College. When they discover a lost tome hidden in the school library, the two burgeoning witches begin casting spells on each other that have very unintended- and embarrassing- consequences. As their appearances slowly transform, their magical conflict intensifies.

When hormones and magic get together, the heat is on.

This 8,200 story has elements of erotica, breast enlargement, bimbo, oral, magic, random orgasms, Asianization, hair growth and magic conflict.
