Why did he just leave me with a broken heart? For eight long years, I hadn't seen Donald. Today, he just showed up at my office out of the blue claiming we needed to talk. I'd wanted to talk to him after we spent that special night together. I woke up in his bed the next morning and he was gone. I tried calling, texting, even emailing him. He ignored them all; I was a virgin and he stole that from me without a second thought. Now, he was back as if nothing ever happened. I had seen him in Forbes magazine a few times. His business empire had ballooned and he was one of the most eligible bachelors until last year when he tied the knot. I didn't even get a returned phone call, let alone an invite to the wedding. I couldn't think what he had to talk about. I had a few questions for him. Number one would be why he left me and broke my heart.
