If you are looking to make millions of dollars while sitting in your pajamas, then this book is not for you! Start Winning With Money is financial book that offers high impact, real world solutions for life's many money questions. Want to better your personal finances? Want to open your own successful business? Would you like some real clarity on the cost of higher education? Want to address the issue of debt in your life? All of that and more is available to you. Start Winning With Money will teach you: Why your current income has nothing to do with obtaining wealth Challenge the popular belief that all debt is bad Address the issues with public education and why you were taught to fail with money Define a proper budget Why good debt can help you grow wealthy Explain the importance of money in achieving financial freedom Redefine true wealth
