A scorching short story from the Eerie Trysts series. Sandy, Mel and Brenda have been drugged and taken to a shack in the middle of nowhere. There's no sign of their kidnapper, but when they try to leave, they're confronted by a beast that's half-wolf half-man. Mel and Brenda run for safety, but Sandy stands her ground. The wolf takes her deep into the woods and shows her that there's more to him than sharp teeth and claws. Contains explicit sex with a wolf-man.
