Two years in medieval Scotland will change a man. A month in the modern world will tempt him back.

Some people don't want Shawn to change, while others can't believe he has. Modern life is not the haven he imagined. The orchestra has a new star, and Amy has found new love—he may still lose her to the stalwart Angus. He is guilt-ridden over leaving Niall to an unknown fate while he escaped to safety in Amy's 21st-century arms. But his life of music turns dark as he learns a medieval foe stalks Amy and his son. Living and fighting alongside Niall, the Laird, Hugh, Robert the Bruce, and Scotland's greatest hero, James Douglas, he learned honor, virtue, and strength. Will they be enough to win back Amy and save his son? Because history and the whole world depend on it.
