Flora's been practically molested, unceremoniously dumped and now totally humiliated by the most good-looking but also, she's now realized, the most obnoxious guy at school. She's had it with immature boys. So when she runs into Max (literally), it somehow seems fated.

But surely a sophisticated, Armani-wearing sex-god such as Max couldn't ever be interested in her? But Max is interested. And he's everything a girl could want in a man-gorgeous-look great clothes, glamorous job, rich...Oh, and older.

Problem is, just how much older? And what are Flora's parents going to say...?
