Loyalty 2 is a story entrenched in everything but loyalty. Everyone has their own agenda and will stop at nothing to get what they desire. Iras returns to Philadelphia to bury yet another person close to him. With death and turmoil lurking around him, he wants nothing more than to move on with his life and leave the game alone for good but Kino, his right hand man, has another plan. Monica, the psycho-sociopath mother of Iras, is an expert at manipulation. Hatred and revenge is the fuel that feeds her engine and to her, family and blood has no meaning. With the lines already crossed, she is ready to even the score. Angel desperately wants to tell Pablo the truth about his daughter, Meeka, but love and her fear of losing everything, keeps her quiet, but when an unexpected ghost pops up, she may have no chances left to come clean.

After Corey's attempt to end Buttah's life, he and Trina move back to the east coast. With Eric and Buttah out of the way, Corey has successfully taken over, and Trina had no worries...or so they thought. Karma comes knocking at their door and neither one of them may have no choice but to answer. You won't want to blink as plots unfold, and scenes pull you in as Tammy brings you the jaw dropping tale of Loyalty 2: Loyalty is everything.
