Pregnant By My Big Black Cuckold I'm feeling more alone than I can ever recall having felt one evening. I'm sitting restly on my couch, unable to find a single thing to occupy my mind to the extent I so desperately need it. My husband Steven is away on business for the week, and all I can do in his absence is sit around and ruminate about how sadly our relationship has crumbled, and how very little either of us have to do with one another these days. In desperation, and in sheer loneliness, I find myself scrolling through online personal ads looking for a casual encounter, craving some physical company this evening. I manage to find an ad for a well-endowed black gentleman, and I promptly meet up with him at his house for a night of wild, passionate lovemaking. It isn't until a few weeks later, then, that I discover I'm pregnant, and I'm forced to break the news to Steven. He seems to have no response when I tell him the truth, but invites the father over to meet him- and then, much to my surprise, requests that the two of us have relations with one another in front of him.

Stunned, but aroused, we do as we're told, and my pregnant body is ravished once more by the father of my unborn child. Only now we're about to find that Steven's interests in the spectacle are far, far steamier than we

could have imagined... This book contains adult themes, harsh language, and is not intended for under eighteen.
