Vange's time traveling errand has gone terribly wrong. She has to get back to the highlands where there are druids, or she'll be stuck here in 1560 forever! Gorgeous highlander Peadar seems ready to defend her from the monstrous men who abound in 16th century Ireland. But he doesn't seem eager to help Vange get back to her real life. Vange is 23 years old. Sweet romance and then married fade to black sex and pregnancy / childbirth, non-graphic. Rated PG. Originally serialized as Vange and Peadar 1-6. Book 3 in an overarching story.
