When a Jasmine Revolution sweeps away the brutal Communist regime, China transforms into the world's first AI-driven Direct Democracy, ushering in a golden age of peace and prosperity. From the earliest days of revolutionary fervor to the turbulence of war and rebellion, the powerful Zhang family is at the center of the storm. Nowt when protests and terrorism bring ultra-nationalism storming back, the nation's favorite son, Colonel Ju-Long, must uncover the traitors in his midst before his beloved country explodes into another civil war.
