Jesse Andersen is a broken man. His life is shattering around him, leaving him tired and alone—wondering if there is anything left of his soul. Then one rainy night, the winds of fate blow his way and suddenly he finds a woman who can make him smile once more. Kari Hawkins has her own wounds to heal. Dating Jesse is a risky proposition—a gamble with emotions that are still raw and painful. Except something about this man calls to her heart with a voice that shares her sadness and offers hope. Hope that maybe, just maybe, he can be the one... Like the pieces of a puzzle, Kari and Jesse come together for solace, for warmth and finally for passion. It's not easy or casual, but it is hot and sensual—and what they both need. Neither wants to ask if it will last—nor do they anticipate the future until it confronts them head-on. Then it's time to ask if their broken lives have truly healed...
