The vampires, stalkers, aliens, and shape-shifters in these stories prove threatening than the main characters feared. "A Layover at Atatürk International"-- When their plane is delayed in Istanbul, Chase looks forward to sharing a hotel room with fellow passenger Viet Bloedrank. "Coffee and Aftershave"-- Skyler discovers that the creepy individual who followed him home from the subway is also stalking the men he dates. "Bryce Olson is Pregnant"-- Hoping for benefits, Russell decides to play along when Bryce Olson gets it into his head that his ex-boyfriend is an alien. "The Stray"-- John thought it just coincidence that his housemate and the big grey dog that came by for handouts never crossed paths. How long would it take him to catch on?
