Librarian Note: This series has been renumbered, currently this is book #4 (former book #3) Sullen, sexy werebear Asher Ellison would do anything to protect his soul mate... even if it means walking away, never claiming her for his own. Asher's life is quiet and empty, but it's preferable to the danger gorgeous blonde Kira would face if he stuck around. When his fated mate is kidnapped and dumped in his front yard, Asher is tempted beyond reason to keep her forever, to hell with the consequences. Kira's life is shattered when she looks up to find herself in the arm of the one man she never expected to see again. When a threat is made on her life, she finds herself taking shelter with devastatingly handsome Asher, the same man who once shattered her heart. Hearts and lives at risk, Kira and Asher will have to move heaven and hell in order to face their demons... and get a second chance at breath, passionate love. Book Three of the Alpha Guardians series is a sultry tale of shifter love under the bayou moon. Fast-paced and full of plot twists, this book will have you hooked until the final word... and leave you satisfied with the sweet happily ever after.
