Empires of the Ancient Near East is a lavishly illustrated chronicle of the four major civilisations to emerge after the Stone Age and the advent of Hellenistic Greece. It encompasses the invention of the wheel to the rise of Persia as the first great superpower and chronicles the art and architecture, laws and language, as well as the bloody conflicts.

This beautifully bound set offers an absorbing insight into the ancient cultures of the Near East. [Source: <http://www.foliosociety.com/book/EAN/...>]
