Matt Tavares's luminous illustrations and Stephen Mitchell's wry text transform this classic Grimms' fairy tale into a splendid edition to treasure. "Deep in a forsaken wood, a wild man keeps watch over a golden spring." Iron Hans is nine feet tall and as brown as rust, with hair to his knees.

He is cursed, a terror to all, until a young prince finds the courage to befriend him. But when the boy betrays Iron Hans's trust, he must make his way in the world alone, penni and unknown — save for a little help from a certain forgiving wild man. Stephen Mitchell's deft retelling and Matt Tavares's elegant illustrations gracefully render this time Grimms' tale about pride and humility, wealth and poverty, and the importance of doing good, whether servant or prince, wild man or king.
