An M/M Mpreg Shifter Romance An apocalyptic event may be what it takes to reunite an Alpha wolfdog shifter with the feline omega he's always loved... Shifters have historically had to hide themselves from humans, or "plainskins." When a disease turns almost all of humanity into wandering undead, civilization as they know it is wiped from the face of the planet.

Able to shift at will into animal form and immune to the disease, shifters quickly rise to the top of the food chain and begin to rebuild the world, forming territories and towns based on their respective species. Guy is a wolfdog shifter, feared by both species. He fell in love with his childhood friend Sean, an omega and cat shifter who was too good for Guy and his controversial heritage. Things have changed with the new era, and now that Guy has taken charge as the Alpha he was born to be, his life finally seems to be coming together--but there's always been the void left by the omega he lost, and Sean still belongs to another man. When the omega comes back into Guy's life, free from the brutal lion shifter who treated him like an object, Guy realizes he's getting a second chance. With newfound confidence, the Alpha makes his move, unaware

that the demons in his past are lurking just around the corner... Author's note: This is a steamy mpreg romance with adult themes.
