Extended description When it rains, they say, it rains.

So when it snows ... well, it's a cold day in Barry's personal hell. He is full of barely-repressed anger.

Six years after his divorce, he is frozen out from his children and even his pet cat hates him. He has lost his business, he's out of work, up to his eyeballs in debt, his car has broken down on the by-pass, his library books are almost overdue and now, to cap it all it's snowing. When it snows in your life, it really snows. A romantic story containing adult themes, a little sex and a f-f- hell of a lot of gratuitous profanity. It was intended to be a comedy, but who else has my funny bone? Adult-content rating: This book contains content considered unsuitable for young readers 17 and under, and which may be offensive to some readers of all ages
