It's nothing but trouble for Jack Martin, chief of police, when Kelsey Reagan blows into town. Her ex-con brother just became the prime suspect in a murder, and this reformed bad girl vows to prove he's innocent. She even blames herself for her brother's jail record--for her brother's convicted crime. And now Jack's precocious young daughter is beginning to idolize Kelsey. But an error in judgment nearly cost the widowed cop his career once; he's never going to let that happen again. Not even for a gorgeous troublemaker like Kelsey.
