Summer Secrets is the fourth book in the Grace Restored Series, which follows the life of Katie MacKenna. Struggling after a tumultuous year of loss and being targeted by an unknown person who calls himself 'The Hunter,' Nick decided she needed a break and took her to his home in Australia. Katie was hoping to leave Joey Rossi and Cristian Gombeda behind for some rest and relaxation, but things are far from relaxing in Australia. She thought she knew Nick, but upon their arrival she learns about his identical twin brother, Nate, who she had no idea even existed. How many more secrets are contained within Australia's borders? Is Nick really who she thinks he is? What else will she discover during this season? What has become of the situation regarding Joey Rossi and Cristian Gombeda?
