This reproducible study guide to use in conjunction with the novel consists of ones for guided reading. Written in Chapter—by—chapter format, the guide contains a synopsis, pre—reading activities, vocabulary and comprehension exercises, as well as extension activities to be used as follow—up to the novel. In a homogeneous classroom, whole class instruction with one title is appropriate.

In a heterogeneous classroom, reading groups should be formed: each group works on a different novel on its reading level. Depending upon the length of time devoted to reading in the classroom, each novel, with its guide and accompanying ones, may be completed in three to six weeks. Begin using NOVEL—TIES for reading development by distributing the novel and a folder to each child. Distribute duplicated pages of the study guide for student to place in their folders.

After examining the cover and glancing through the book, students can participate in several pre—reading activities. Vocabulary questions should be considered prior to reading a chapter; all other work should be done after the chapter has been read. Comprehension questions can be answered orally or in writing. The classroom teachers should determine thee amount of work to be assigned, always keeping in mind that readers must be nurtured and that the ultimate goal is encouraging students' love of reading. The benefits of using NOVEL—TIES are numerous. Students read good literature in the original, rather than in abridged or edited form. The good reading habits, formed by practice in focusing on interpretive comprehension and literary

techniques, will be transferred to the books students read independently. Passive readers become active, avid readers.
