Come with Arlo the elephant on his very first adventure. In this adventure, we tackle the question of what happens at the dentist. Kids will love taking a peek into Arlo's wild imagination and then discovering with Arlo, what really happens at the dentist. The illustrations, many from Arlo's point of view, help children clearly relate to the various situations. Author Karisa Lowe strives to prepare kids for new and possibly daunting situations in a fun and entertaining way.
