Plus Size Romance: An Unexpected Romance 5 [A Plus Size Romance Series] [Curvy Women Romance]
Chapter One All Amanda Teague wants is a job within Parker Industries, but when her wish comes true, she's not as ecstatic as one might expect. The reason? Jackson Parker himself. The youngest of the Parker men who is known for his playboy ways. And lucky Amanda gets to be his assistant.

During a business trip with her boss, they're forced to land the private jet in the middle-of-nowhere Nebraska due to bad weather. And they're forced to spend the night. Together. In a crappy hotel room where the heat is stuck on high and they're literally burning up. But their hotel room isn't the only thing getting hot. The more Amanda sees of Jackson, the more she realizes she (and the press) is wrong about him. Yes, he can be cocky and arrogant, but he's also a complete gentleman. And a sexy, dominant one at that. Chapter Two Amanda Teague thought she had everything figured out until a fateful layover with her boss, Jackson Parker. After a night of passion in a dingy hotel room, Amanda is thrown for a loop. On one hand, he's her boss - a rich, arrogant man that she used to loathe. On the other, he's a sexy gentlemen who seems to have taken a liking to

her. As if Amanda isn't confused enough, at the conference in New York City, Amanda is introduced to Greta Dupree, a gorgeous woman who's apparently part of Jackson's past. Jealousy isn't an attractive emotion on anyone, but Amanda and Greta collide, will Jackson put Amanda in her place once and for all? And better yet, will Amanda enjoy it? Chapter Three Amanda Teague returns to work, but things are awkward to say the least.

After a romantic rendezvous with her boss, Jackson Parker, while the two were away on a business trip, she's now trying to figure out where she fits in. Not only that, she's interviewing for a position with his brother, a promotion that has her head spinning. As she trains her replacement, she starts to wonder if taking the new job will mean an end to her and Jackson. This book, *An Unexpected Romance*, is part of the Plus Size Romance Series. It is a standalone book with no cliffhangers. It is a romance novella that contains drama, suspense and steamy love scenes.
