Sheryl Lister presents a second-chance holiday romance as her seasonal gift to you—her readers! Will former lovers be reunited just in time for Christmas... Melissa Tucker broke off her no-strings attached liaison with Kyle Jamison the minute she realized that she didn't just like him—she'd gone and fallen in love with him. Now, months later, the former police detective is the only one she can turn to when the threatening notes she's been receiving start to escalate. Only she didn't count on still wanting him... Kyle shared a sensual affair with Melissa and was completely blindsided when she broke things off. Granted he'd made his position against long-term relationships very clear at the start, but she's the one woman he hasn't been able to forget and now that he has the chance, he intends to prove to her that he is indeed a one-woman man.
